To Whom It May Concern

This is to confirm that **Saniya Ahmed**, a student of SATI, Vidisha has been working as a **MERN Stack Developer** Intern at **AI Integratorz**, Indore from 01/07/2025 to Present.

During her internship, Saniya has demonstrated strong technical knowledge and hands-on expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). His key contributions include:

- Designing and developing responsive and scalable web applications.
- Implementing RESTful APIs and integrating them with frontend systems.
- Optimizing database queries and ensuring efficient backend performance.
- Collaborating with the engineering team to deliver high-quality, user-friendly software solutions.

Her problem-solving ability, dedication to learning, and proactive approach have made him a valuable part of our development team. With a stipend range of INR 15,000 per month, Saniya continues to gain practical exposure and contribute meaningfully to live projects.

We appreciate her commitment and look forward to her continued growth in the field of software development.
